Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>

- **State Executive Order N-07-21 and N-08-21**

On June 15th, the Governor terminated the executive orders that put into place the Stay Home Order and the Blueprint for a safer economy. He also phased out most executive actions put in place since March 2020 as part of the pandemic response, leaving a subset of provisions that facilitate the ongoing recovery. For more information visit: [Executive Order N-07-21](#) and [Executive Order N-08-21](#)

- **Executive Order N-09-21**

On 06/17/21, California revised Covid-19 Prevention Emergency Temporary Standards based on a vote by the Occupational Safety and Health Standards Board, to take immediate effect on 06/17/21. The updates include changes to face coverings and physical distancing requirements. More information on the revised Covid-19 Prevention Emergency Temporary Standards can be found in CAL/OSHA's Frequently Asked Questions: [Frequently Asked Questions](#)

- **CDPH Statewide Travel Advisory**

As of 06/15/21, CDPH and the CDC recommend delaying travel until persons are fully vaccinated. For more information: <https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/COVID-19/CA-is-Open-Travel-Guidelines.pdf>

On 04/21/21, the State Operations Center (SOC) changed the reporting tempo for the COVID-19 Sit Stat and Trifold Reports from daily to once a week. Updated reports can be expected every Tuesday of each week until further notice.

WEATHER KEY POINTS

07/04/21 - 07/10/21

Sunday-Saturday

- Hot temperatures continue for much of interior California through the weekend and much of the upcoming week, with moderate to locally high heat risk impacts expected.
 - For this weekend, the high heat risk areas will generally be near the Oregon border
 - Notably cooler temperatures for areas closer to the Pacific coast
- Breezy conditions each afternoon will persist in the foothills and mountains through the weekend and likely into the first half of this week, bringing additional rounds of elevated fire weather conditions
- Isolated showers and thunderstorms will continue to be a threat over the Sierra and possibly the mountains of southern California Sunday. A few storms are also possible across the southern deserts Sunday.
 - Some storms will be capable of producing lightning, gusty winds, and localized heavy rainfall
 - Some thunderstorms across northeastern California may be dry on Sunday, which means little to no precipitation is expected with lightning.
 - Little to no rainfall with these storms will promote a higher potential for multiple new fire starts from lightning, and may combine with strong outflow winds to cause a fire to rapidly grow in size and intensity
- After a dry start to the week, the chance of isolated thunderstorms increases again midweek into late week across southern and interior California
